Window Expert Industries Pvt.Ltd.

Window Expert[®]

Fenestration Professionals

ABOUT US: Welcome to Window Expert Industries Pvt. Ltd. We are one of the leading manufacturer of premium uPVC & Aluminium Windows Doors in India. We started in 2004 with the manufacturing capacity of 10 windows per day. We firmly believe in perfection & that is the reason we meticulously follow all the International Standard to maintain the quality in all the parameters. CNC machines. We are proud of producing both Aluminium & uPVC window with the capacity of 150 units per day under one roof.

VISION: "To become a number one Fenestration Solutions Company in India by providing best quality & service"

MISSION: "To become preferred company for supplying premium Windows & Doors"

Benefits of uPVC Windows

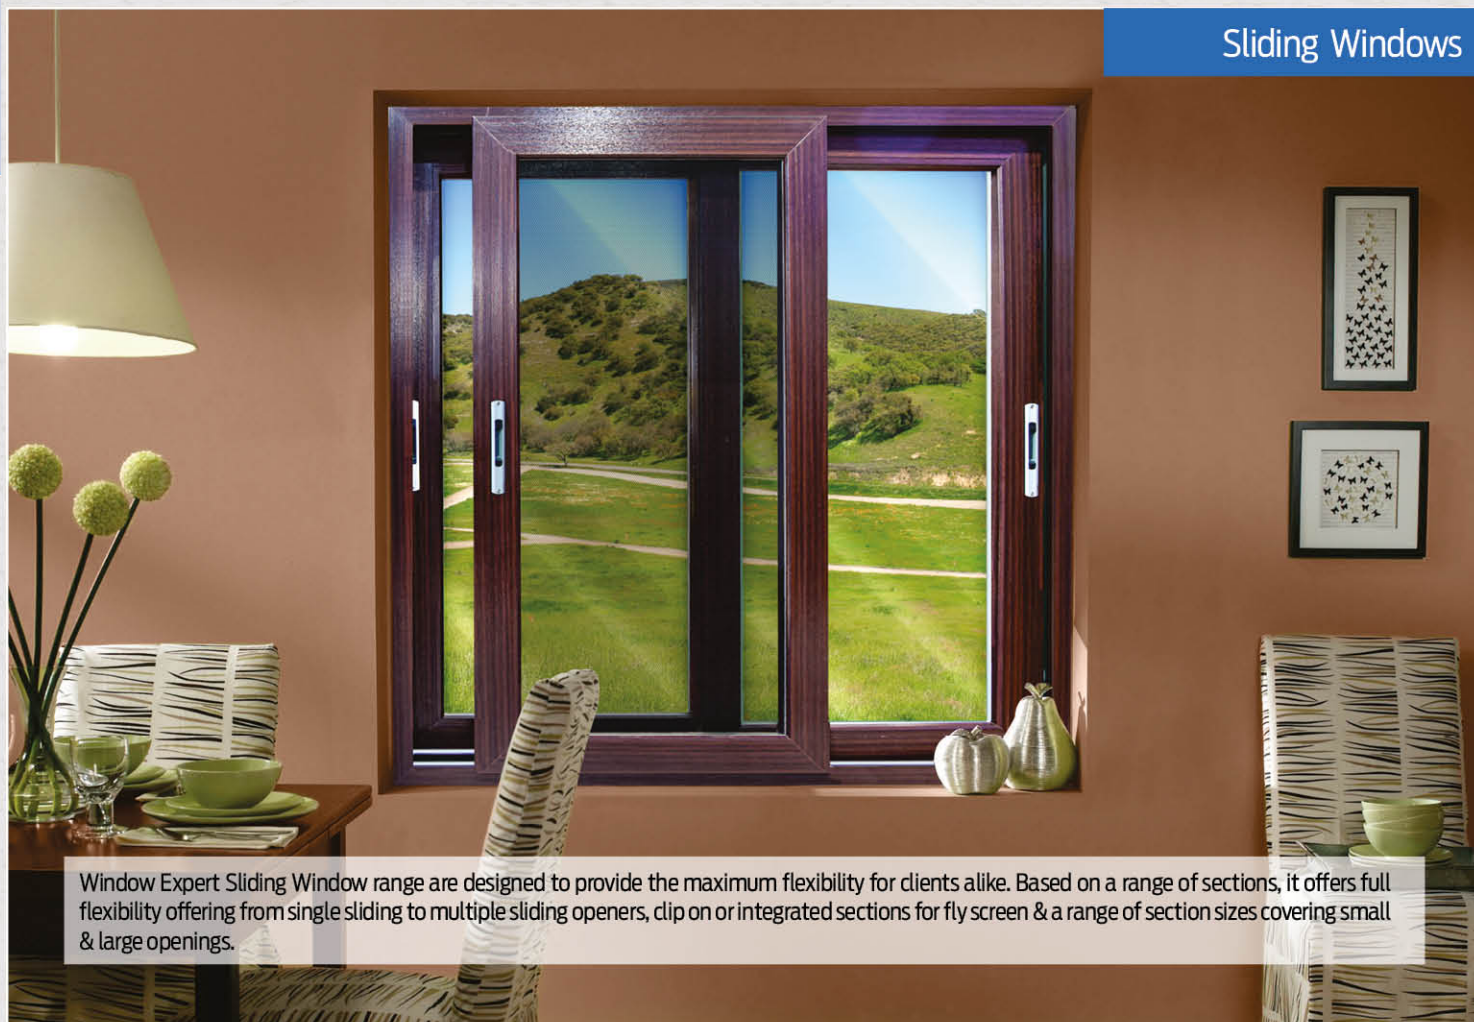

The Process Flow Implementation

uPVC
Windows
& Door

Sliding Windows

Window Expert Sliding Window range are designed to provide the maximum flexibility for clients alike. Based on a range of sections, it offers full flexibility offering from single sliding to multiple sliding openers, clip on or integrated sections for fly screen & a range of section sizes covering small & large openings.

Fold-Slide Doors

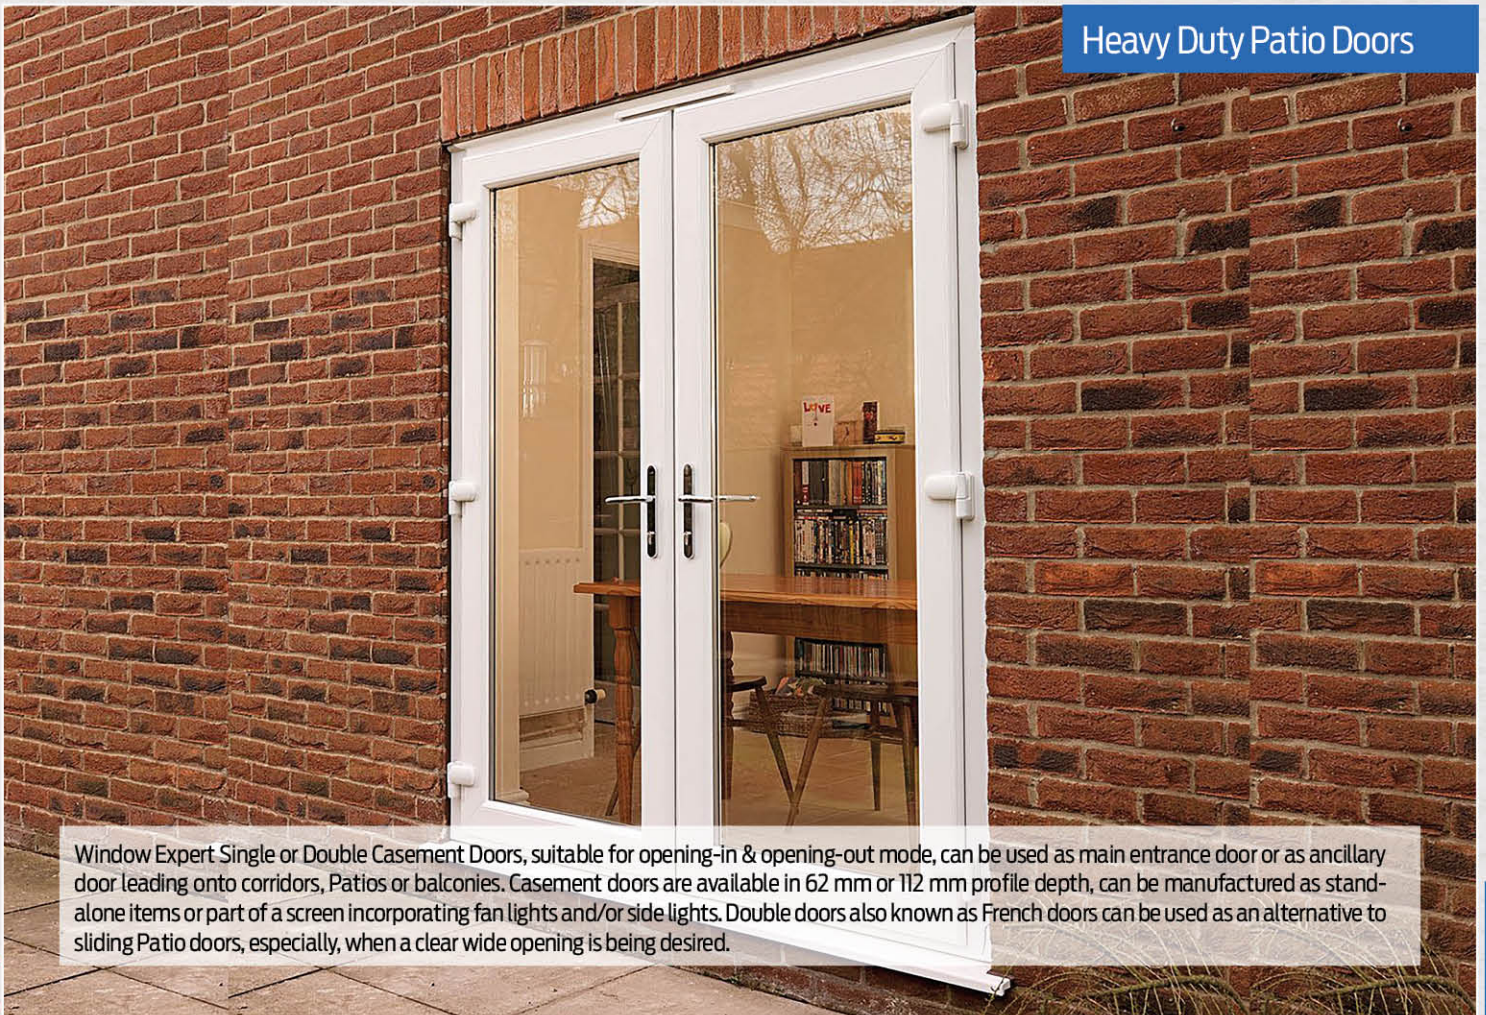

Window Expert Sliding Doors range covering frame depths from 62mm to 142mm is designed to provide the maximum flexibility for fabricators & clients alike. Based on a range of sections, it offers full flexibility from single sliding to multiple sliding openers, clip on or integrated sections for fly screen & a range of section sizes covering small & large openings.

Tilt & Turn Windows

Window Expert Casement Window range are designed to provide the maximum flexibility for fabricators & clients alike. The system is based on a two profile depths - 42 & 62 mm & was designed to facilitate maximum application coverage with the minimum number of profile sections providing fabricators & clients at the same time with the ideal range of products to suit any window replacement program or building type in the fast growing construction industry.

Heavy Duty Patio Doors

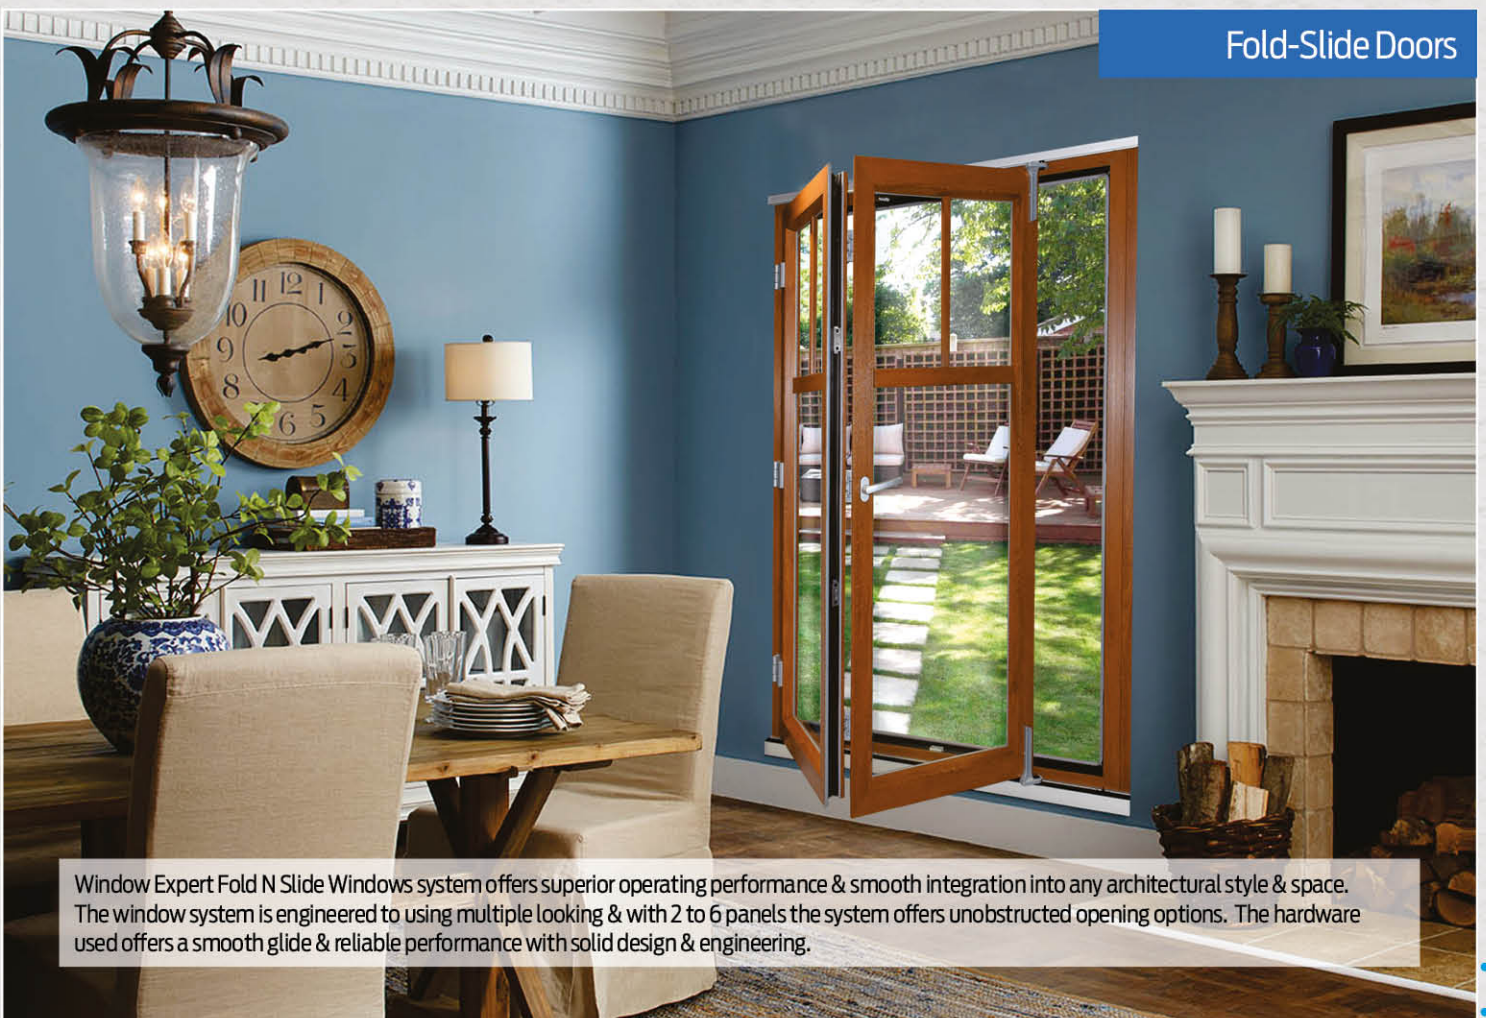

Window Expert Single or Double Casement Doors, suitable for opening-in & opening-out mode, can be used as main entrance door or as ancillary door leading onto corridors, Patios or balconies. Casement doors are available in 62 mm or 112 mm profile depth, can be manufactured as stand-alone items or part of a screen incorporating fan lights and/or side lights. Double doors also known as French doors can be used as an alternative to sliding Patio doors, especially, when a clear wide opening is being desired.

Vertical Slider Windows

Window Expert Vertical Slider Windows, a traditional fenestration concept that has become the perfect solution for ancillary frames when the opening aperture is taller than width i.e. reference golden ratio 1: 1.618, & when one opening sash is required for ventilation and/or fire escape! Its simple operation is based on a pair of frame specific, site tensioned, spiral balances that can hold the sash open in any position. The spiral balance technology has successfully replaced the traditional weights & pulleys method because of requiring less space enabling the modern uPVC vertical slider to fit perfectly into both aperture types, straight through or reveal.

Fold-Slide Doors

Window Expert Fold N Slide Windows system offers superior operating performance & smooth integration into any architectural style & space. The window system is engineered to using multiple looking & with 2 to 6 panels the system offers unobstructed opening options. The hardware used offers a smooth glide & reliable performance with solid design & engineering.

Tilt & Turn Windows

Window Expert Tilt N Turn Windows are designed to provide a European window option for fabricators & clients alike. The window is available as part of the EN62 range & was designed to give the discerning end user a state of the art inward opening fenestration solution. The Window Expert Tilt N Turn provides the client maximum design freedom due to larger opening sizes that can be achieved & suits any window replacement program or building type in the fast growing construction industry.

Heavy Duty Patio Doors

Window Expert's Heavy Duty Patio Doors can comply with those new challenges with its 2-pane version which can be manufactured up to 5.8 mtrs wide & up to 3.0 mtrs tall, accepting a maximum sash weight of 300 kg. The overall outer frame depth of 142 mm housing two 62 mm deep sashes is perfectly suited for modern straight through apertures.

TwinSash Windows

Window Expert TwinSash Windows are designed to provide ultimate flexibility for fabricators & clients alike. It provides the option of combining the traditional casement window with traditional inward opening fly screen option. There is a facility to incorporate a security grill or blinds for security or privacy. It also offers an additional variant of sash with integrated louvers with fly screen option. It was designed to facilitate maximum application coverage with the minimum number of profile sections providing fabricator & at the same time the end user with the ideal range of products.

Partition

Window Expert has designed uPVC partition with georgian bar for corporate office, which gives you aesthetic & elegant look.
